NEW AND IMPROVED

Flowing In The Wind

Procuring new United States and Virginia state flags and displaying them outside the office building adds a vibrant touch to the exterior, instantly catching the attention of crowds on the street and instilling a sense of pride among employees. With each flutter in the wind, these new flags reinforce a sense of unity and create an atmosphere that fosters camaraderie and goodwill.

Growing Greenery

Patio plants in our coworking space will bring numerous benefits. Enhancing the aesthetics of the outdoor space creates a welcoming environment that fosters relaxation and positivity. This new refurbishing will also boost morale and productivity, as studies have shown that connection with nature will reduce stress and enhance cognitive function.

Glowing Lights

Pizzano Contractors' installation of new windows in the upstairs office space heralds a significant upgrade, bringing in ample natural light and enhancing the workspace environment. With precision and expertise, the team ensures the seamless integration of these windows, optimizing energy efficiency and comfort for employees. As sunlight floods the interior, productivity soars and a refreshed ambiance inspires creativity and focus.

Showing Off Those Moves

Our new gym mats have revolutionized our workout space, offering unparalleled support and comfort during exercise sessions. These mats are not just about cushioning our movements; they symbolize a commitment to prioritizing health and wellness within our workspace. Understanding the significance of physical activity on productivity, we've embraced the notion that a healthy body fosters a healthy mind. By incorporating regular workouts into our daily routines, we're not only investing in our physical well-being but also enhancing our cognitive abilities and overall productivity. Our modernized gym serves as a foundation for our dedication to self-care, enabling us to push ourselves further, both physically and professionally, with the help of our team of trainers and physical therapists, who are guaranteed to get you there and keep you there.

COMING THIS SPRING, HYPERGOAT CAFÉ!

Coming this spring, our partners Rodrigo and Deborah of Hypergoat Coffee Roasters will be opening a café right here at The Link! You can expect lots of delicious treats and tasty coffee, roasted and made directly from our Hypergoat friends. This café promises to be a haven for productive breaks and rejuvenation. From morning lattes to afternoon snacks, it will cater to the diverse tastes of our lively community. Construction is set to begin in May with hopes that the café will be finished at the beginning of the summer so keep an eye out for this exciting new addition!
