NEW AND IMPROVED @ THE LINK

Our newly available conference room is designed to comfortably host up to 10 people, featuring amenities such as a projector and screen. This setup enhances our capability to facilitate efficient and productive meetings! Additionally, for members the booking rate is \$45/hourly and \$50/hourly for outside guests.

We recently had our brand new window installations completed in our upstairs offices by Pizzano's Contractors, and we're thrilled with the professional service and quality of workmanship they provided. The upgraded windows have significantly improved both the aesthetics and functionality of our workspace!

Due to the construction of the new café, our building space has undergone a positive transformation, providing a welcoming environment for community gatherings and innovative work. This new setup offers a space for dedicated desks and flex members while allowing networking opportunities and a chance to enjoy the full coworking experience!
