TOP 5 OF 2025

1. Member Events

Our member events really took off this year, featuring special gatherings like our St. Patrick's Day potluck, Mardi Gras celebration and Linktoberfest, along with many delicious lunches from crowd favorites such as Andy's Pizza, La Baik, and Los Tios Grill!

2. Office Buildout

Our upstairs space got quite the revamp this April, as we broke down some of our larger offices to create more flexibility and make room for members looking for single-person offices which better meets the evolving needs of our community.

3. Revolutionary Fitness Takeover

In July, Revolutionary Fitness became the tenant operator of the gym space at The Link, bringing new energy and exciting momentum to our wellness offerings. Founded by Charles Augustine, Revolutionary Fitness has big plans to grow the business while creating added value for our coworking members through enhanced access, programming, and a stronger focus on community well-being.

4. Hypergoat Café Expansion

This August, Hypergoat Café expanded its space after celebrating their one-year anniversary! With more room to hang out, better flow, and space for new ideas, the café has grown smoothly right inside our amazing community. We were so excited to see what came next and loved welcoming everyone into the expanded space, creating even more moments to connect, relax, and enjoy together.

5. Kas Flowers Shop Opening

In October, Kas Flowers Shop celebrated the opening of its very first location right here at The Link, bringing fresh flowers and creative arrangements to Old Town Alexandria. Owner, Kas Kalehe, looks forward to growing her beautiful business within the local community and providing much brighter views around our coworking space!
